

Modern agriculture

1. Ningqiang County Agricultural and Sideline Products Deep Processing Project
2. Construction project of cold chain logistics complex of agricultural and sideline products in Qianxian
3. Development and Utilization Project of the Whole Kiwi Fruit Industry Chain in Langao County
4. Fengxian Agriculture and Tourism Integration Complex Project
5. Shangnan County kiwifruit growing industrialization projects
6. 50,000 only organic milk goat breeding demonstration base project in Longxian
7. Construction project of under-forest breeding base in Hanbin District, Ankang City
8. Construction project of 10,000-mu medium-shed large cherry planting base in Chengcheng County
9. Mutton Deep Processing Project in Hengshan District, Yulin City
10. Yangling Plant Factory Industrialization Project
11. Hancheng 10 million bags of shiitake mushroom planting base construction and processing project
12. Hanhe Modern Agricultural Park Project

1. Ningqiang County Agricultural and Sideline Products Deep Processing Project

1. Project name:

Ningqiang County Agricultural and Sideline Products Deep Processing Project

2. Project unit:

Ningqiang County Agriculture and Rural Bureau

3. Project content:

In-depth analysis of specialty agricultural and sideline products such as tea industry, edible fungi, gastrodia, walnuts, and soil honey in Ningqiang County

Development, intensive processing, forming a unique product system.

4. Total investment and cooperation methods:

The total investment of the project is 800 million yuan, sole proprietorship or joint venture.

5. Market forecast and investment return analysis:

After the project is completed and put into production, the total annual income can reach 500 million yuan.

2. Construction project of cold chain logistics complex of agricultural and sideline products in Qianxian

1. Project name:

Construction project of cold chain logistics complex for agricultural and sideline products in Qianxian County

2. Project unit:

Qianxian Investment Promotion Bureau

3. Project content:

The project is planned to be located in Qianxian Industrial Zone, with a land area of 200 mu, mainly for the construction of storage, cold storage, commerce, housing,

Market construction, commercial blocks, sub-regional professional markets, business hotels, e-commerce platforms, auction centers,

The building area of the testing center, R&D center, hotel-style apartment, office space, etc. reached 150,000 square meters.

4. Total investment and cooperation methods:

The total investment of the project is 1.5 billion yuan, sole proprietorship and cooperation.

5. Market forecast and investment return analysis:

After the project is completed, it is estimated that the annual operating income will reach about 500 million yuan, and the profit and tax will be about 100 million yuan. And drive local

Economic growth has solved the employment problem of more than 2,000 people.

3. Development and Utilization Project of the Whole Kiwi Fruit Industry Chain in Langao County

1. Project name:

Development and Utilization Project of Kiwi Fruit Industry Chain in Langao County

2. Project unit:

Agriculture and Rural Bureau of Langao County

3. Project content:

Langao County is located in the subtropical climate zone at the southern foot of the Qinling Mountains. It is rich in Hanjiang branch water resources and rich in selenium.

Mineral land resources constitute the unique natural conditions for the growth of kiwifruit. New kiwi fruit in the project

Juice, fruit wine, preserved fruit processing and production plant 8000 square meters, production workshop, product warehouse, raw material warehouse, cold storage

15,000 m², comprehensive building and supporting infrastructure. Purchase 150 sets of equipment and complete 1 green certification

Certification and 5 organic certifications.

4. Total investment and cooperation methods:

The total investment of the project is 540 million yuan, which can be sole proprietorship, holding, equity participation or mixed investment.

5. Market forecast and investment return analysis:

After the project is completed, you can enjoy the "Langao County Implementation Rules on Strengthening Investment Promotion Work" (Lanzheng Office

[2018] No. 21) related preferential policies. It is expected to process 50,000 tons of kiwi fruit annually, and normal annual sales income

It has reached 200 million yuan, with a net profit of 80 million yuan, an investment payback period of 6.8 years, and 600 jobs.

4. Fengxian Agriculture and Tourism Integration Complex Project

1. Project name:

Fengxian Agriculture and Tourism Integration Complex Project

2. Project unit:

Fengxian Investment Promotion Service Bureau

3. Project content:

The characteristic connotation of pastoral culture along the Hongtang Road in Fengxian County, guided by model innovation, and the color corridor,

With the theme of cultivating pastoral and characteristic agricultural development, implement the overall development of leisure agriculture, and construct reception areas and landscapes

Observation area, modern agriculture demonstration area, parent-child experience planting area, Huixin town, forest hiking development area, special

Functional areas such as color breeding demonstration areas and high-end resort areas will be built along the route into a collection of demonstration planting, agricultural experience, and viewing

A high-quality pastoral complex at the southern foot of the Qinling Mountains, integrating tourism, leisure and vacation, to realize pastoral and rural spaces

The construction goal of organic interspersed, production, life and ecological integration symbiosis.

4. Total investment and cooperation methods:

The total investment of the project is 500 million yuan, sole proprietorship, joint venture or cooperation.

5. Market forecast and investment return analysis:

The agricultural and tourism integration complex project is a characteristic town integrating modern agriculture, leisure tourism, and rural communities

The integrated development model of rural and rural areas is based on the integration of urban and rural areas and conforms to rural supply-side structural reforms and new industries.

Development, combined with the reform of the rural property rights system, to realize China's rural modernization, new urbanization, and comprehensive socio-economic

A sustainable model of development. After the implementation of the project, it is estimated that the annual sales income will be 200 million yuan, with profits and taxes 1

100 million yuan.

5. Shangnan County kiwifruit growing industrialization projects

1. Project name:

Kiwi Fruit Planting Industrialization Project in Shangnan County

2. Project unit:

Shangnan County Agriculture and Rural Bureau

3. Project content:

Build a 20,000 mu standard kiwifruit planting demonstration base, corporate headquarters, R&D center and supporting processing,

Cold chain logistics center, purchased 193 production equipment (sets), with a total construction area of 31027 square meters, and an annual output of kiwifruit

40,000 tons, forming a kiwifruit production integrating planting, R&D, cold chain, logistics, processing, sales and tourism

Industrialization project. At present, the preparation of the development plan has been completed, and part of the land has been transferred.

The base of good varieties of kiwifruit is 12,000 mu.

4. Total investment and cooperation methods:

The total investment of the project is 330 million yuan. Sole proprietorship, joint venture or others are acceptable.

5. Market forecast and investment return analysis:

Kiwi is a kind of fruit with fresh and tender quality, rich nutrition and unique flavor. It is rich in carbohydrates and fruit.

Gum, vitamins, amino acids and trace elements, known as the "King of Vitamin C", can significantly reduce cholesterol and increase

Body activity, promote metabolism, coordinate body functions, block carcinogens, enhance physical fitness, and delay aging,

It can be eaten by the general population, especially suitable for constipation, cancer patients, hypertension patients, coronary heart disease patients, heart blood

Regardless of the consumption of patients with diseases, loss of appetite, indigestion, aviation, plateau, mines and other special workers,

Market prospects.

6. 50,000 only organic milk goat breeding demonstration base project in Longxian

1. Project name:

50,000 only organic milk goat breeding demonstration base project in Long County

2. Project unit:

Long County Livestock Bureau

3. Project content:

The project plans to invest a total of 300 million yuan, cover an area of 1,000 acres, and build 5 10,000 standardized breeding farms.

50,000 dairy goats are raised. Breeding sheep and basic ewes are imported from foreign high-yield breeds or frozen fine tubes.

The county's household expansion policy is breeding. Relying on the opportunity of Long County to build a tens of billions of milk capital, fully tap the liquid goat milk resources, and develop

Fat liquid goat milk series products.

4. Total investment and cooperation methods:

The total investment of the project is 300 million yuan, wholly-owned.

5. Market forecast and investment return analysis:

Long County has abundant natural pastures and the climate is suitable for dairy goat breeding. After the project is put into production, the annual income is estimated to be 60,000,000 yuan.

7. Construction project of under-forest breeding base in Hanbin District, Ankang City

1. Project name:

Construction project of underforest breeding base in Hanbin District, Ankang City

2. Project unit:

Investment Service Center of Hanbin District, Ankang City

3. Project content:

Set up 10 large-scale under-forest breeding farms, producing 5 million native chickens and 1 million meat rabbits annually. Construction property

Product sales base, network operation base.

4. Total investment and cooperation methods:

The total investment of the project is 250 million yuan. Sole proprietorship or joint venture is acceptable.

5. Market forecast and investment return analysis:

After the project is completed, the estimated annual output value is 450 million yuan, and the annual profit and tax is 80 million yuan.

8. Construction project of 10,000-mu medium-shed large cherry planting base in Chengcheng County

1. Project name:

Construction project of 10,000-mu medium-shed cherry planting base in Chengcheng County

2. Project unit:

People's Government of Siqian Town, Chengcheng County

3. Project content:

In Siqian Town, Chengcheng County, build 10,000 mu of modern daylight sheds, each shed covering an area of 1 mu, and each greenhouse

Planting 100 big cherries in the middle shed; supporting the construction of water supply, power supply and heating systems for the greenhouse; supporting the purchase of the greenhouse

There are 100 sets of various types of production machinery.

4. Total investment and cooperation methods:

The total investment of the project is 200 million yuan, cooperation, joint venture or sole proprietorship.

5. Market forecast and investment return analysis:

After the completion of the project, the annual sales income will be 120 million yuan and the net profit will be 45 million yuan.

9. Mutton Deep Processing Project in Hengshan District, Yulin City

1. Project name:

Lamb Deep Processing Project in Hengshan District, Yulin City

2. Project unit:

Animal Husbandry Bureau of Hengshan District, Yulin City

3. Project content:

Introduced large-scale meat processing enterprises in Hengshan District, Yulin City, and developed and produced dried lamb, frozen instant lamb stew,

Frozen instant lamb offal, mutton rolls, mutton ham, canned mutton and other mutton foods, intensively processed mutton 1000 per year

Ton,

4. Total investment and cooperation methods:

The total investment of the project is 100 million yuan, which is a joint venture or sole proprietorship.

5. Market forecast and investment return analysis:

After the project is completed, the annual sales will be 200 million yuan.

10. Yangling Plant Factory Industrialization Project

1. Project name:

Yangling Plant Factory Industrialization Project

2. Project unit:

Shaanxi Xutian Optoelectronic Agricultural Technology Co., Ltd.

3. Project content:

In order to realize the construction of the production line of the plant factory, achieve the purpose of industrialization, and produce according to market demand

It can be expanded. It is located at No. 1 Chuangxin Road, Accelerator, Yangling Agricultural Products Processing Park. The main construction content is the construction of the first floor container

Box production workshop, 2nd floor office and R&D center, 3rd floor household and commercial vegetable growing machine, LED plant

Growing light source production line and parts warehouse warehouse. The construction period of this project is 1 year. After the project is completed, 20,000

m² plant factory's LED plant growth light source, soilless cultivation facilities and environmental control equipment supporting capabilities have formed

Manufacturing capacity of 500 sets of 20-foot standard container plant factories; forming 10,000 sets of small household/commercial vegetables

Manufacturing capacity of vegetable growing machine.

4. Total investment and cooperation methods:

The total investment of the project is 20 million yuan, including fixed assets investment of 15 million yuan and working capital investment of 500 million yuan

Ten thousand yuan. The planned investment is 10 million yuan, joint venture or cooperation.

5. Market forecast and investment return analysis:

It is estimated that the annual output value will reach 300 million yuan. Project investment recovery: static investment recovery period =

2.24 years; the dynamic payback period of investment = 2.31 years. The internal rate of return can reach 30% within five years, and the profit rate is obvious higher than similar projects.

11. Hancheng 10 million bags of shiitake mushroom planting base construction and processing project

1. Project name:

Hancheng 10 million bags of mushroom planting base construction and processing project

2. Project unit:

Hancheng Banqiao Town Public Utilities Service Station

3. Project content:

The project covers an area of 120,000 square meters, of which the base construction area is 90,000 square meters and 10 million bags of mushrooms are planted.

The processing base occupies an area of 30,000 square meters, and a modern enterprise integrating processing, R&D, and distribution will be built to form an annual output of shiitake mushrooms

7,500 tons, the annual processing capacity of dried shiitake mushrooms, shiitake mushrooms crisp, shiitake sauce more than 2,000 tons.

4. Total investment and cooperation methods:

The total investment of the project is 100 million yuan, including 85 million yuan in fixed assets, 15 million yuan in circulating funds, joint ventures, Cooperation.

12. Hanhe Modern Agricultural Park Project

1. Project name:

Hanhe Modern Agricultural Park Project

2. Project unit:

Hancheng Hanhe Agricultural Park Construction and Development Co., Ltd.

3. Project content:

The project is implemented in three phases: initially based on agricultural activities, comprehensive development of agricultural resources and characteristics with tourism value

Agricultural products, pastoral scenery and local culture, to build a comprehensive integration of gardening, leisure, sightseeing, popular science, exhibition and production

The park, highlighting the function of sightseeing, embodying the theme of "returning to nature, returning to nature";

Create an artistic environment and humanistic experience to build an agricultural sharing economy with the park as the core and surrounding residential villages as the basis

Demonstration area, to achieve the overall goal of the pastoral complex, and promote the construction of Longting New District; in the long term, it will be built around Longting New District

An agricultural shared economy demonstration zone with parks as the core and surrounding residential villages as the basis to achieve the overall goal of the pastoral complex.

Promote the development of Longting New District.

4. Total investment and cooperation methods:

The total investment of the project is 1 billion yuan, cooperation, joint venture.
